A Follow-up Study of the Class of 2001

Ohio Wesleyan Outcomes

A Follow-up Study of the Class of 2001

September, 2002

This summer Career Services conducted our annual survey to study the career journeys of Ohio Wesleyan graduates. Questionnaires were sent out to Ohio Wesleyan University graduates approximately one year after their graduation. The initial mailing included a paper copy of the survey with a postage-paid return envelope, as well as instructions about the option of filling out the survey on-line. A follow-up e-mail reminder was sent to individuals who had e-mail addresses available through Alumni Relations and had not returned the survey, providing them with a link to the survey on-line. These two communications yielded a return rate of 36% of the Class of 2001.

This report covers the following areas for the Class of 2001:

- *Summary Statistics*
- *Employment Information*
- *Graduate School Information*

I hope this report will serve as a reference guide for all faculty, staff, students, parents, and alumni interested in career-related statistics for recent Ohio Wesleyan graduates.

Despite the economic challenges that we have faced as a country, Ohio Wesleyan's Class of 2001 graduates are successfully employed in a variety of areas. The economic impact appears to have increased the length of time that it took graduates to find jobs, although many graduates mentioned endeavors (i.e. internships, summer jobs, traveling, further coursework, time off) that kept them from searching for positions immediately following graduation. Securing full-time employment in their field of choice was also affected, down to 76% from the 88% rate last year. A similar percentage of graduates chose to pursue graduate studies in a diverse array of programs. The current status of the Class of 2001 is as follows:

64% are currently employed
24% are enrolled in graduate school
10% are enrolled in graduate school and employed
2% are involved in other endeavors or were not employed at the time of the survey

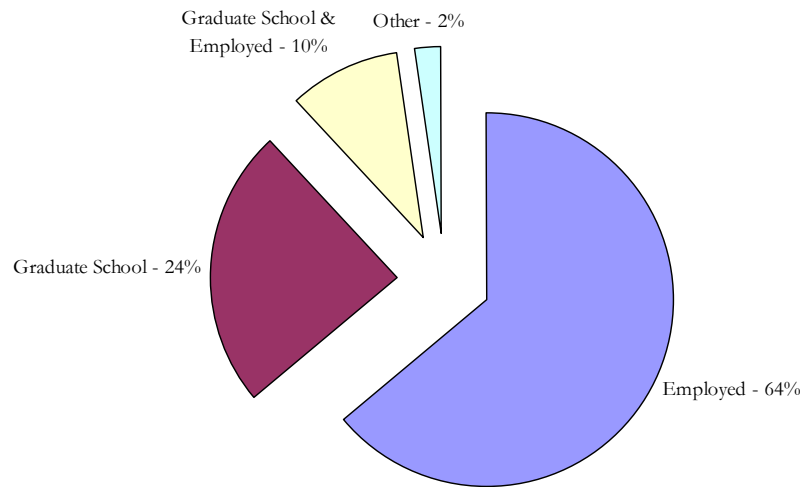

Comparison data for the Class of 2000 is included within the report. If you have any questions or desire additional statistics about the Class of 2001, please contact Career Services at (740) 368-3152. We are able to sort information by any field listed within the questionnaire. I hope you find the results of this survey interesting and informative.

Sincerely,

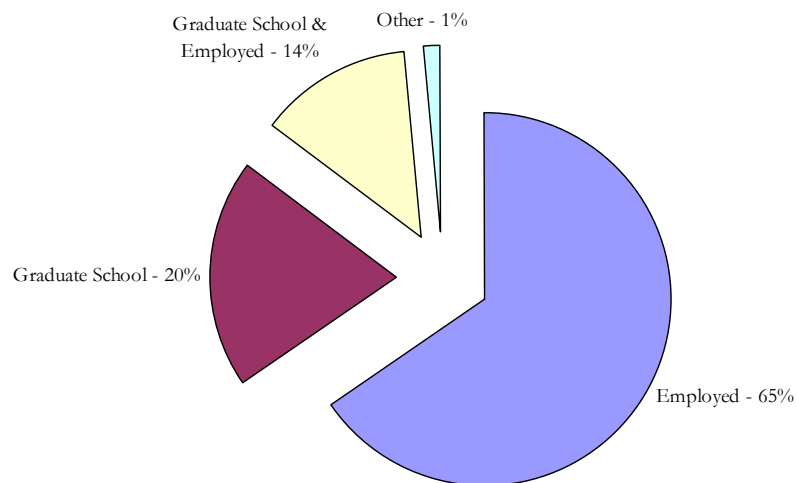

Carrie A. Lippert
Director of Career Services
