

National Drug List

Drug list — Four (4) Tier Drug Plan

Anthem Blue Cross and Blue Shield prescription drug benefits include medications on the Anthem National Drug List. You can save money when your doctor prescribes medications on the drug list. This list is not comprehensive. And your coverage has limitations and exclusions. For example, drugs used for cosmetic purposes usually are not covered. Always refer to your Certificate or Evidence of Coverage for details about what's covered and what's not. Then if you have additional questions, call Customer Service at the number on your member ID card.

Anthem Blue Cross and Blue Shield Drug List

Your prescription drug benefit includes coverage for medications that you'll find on the Anthem National Drug List. You may save money by using lower tier drugs.

Q. What is a Drug List?

A. The Anthem National Drug List, also called a formulary, has drugs on it that are approved by the U.S. Food and Drug Administration (FDA). This includes brand-name and generic drugs, reviewed and recommended for their quality and for how well they work. The review is done by the National Pharmacy and Therapeutics (P&T) Process. The P&T process involves an independent group of practicing doctors and pharmacists in charge of the research and decisions surrounding our drug list. This group meets regularly to review new and existing drugs. They choose the top drugs for our list — based on their safety, how they work and their value. Drugs on our list are reviewed from time to time. Sometimes this results in drugs being added or removed. So now and then, it's a good idea to check the status of any drugs you may be taking. You can see the list by going to anthem.com. Also, we will always try to notify you of any changes to the formulary that impact you.

Q. How do we determine the tier of a drug?

A. Medications on the Anthem National Drug List are grouped into tiers. Drugs on the lowest tier have the lowest cost share, which is what you pay. Drugs on the highest tier cost you more. Several factors determine what tier a drug is placed in, including:

- Cost of the drug
- Cost of the drug compared to other drugs used for the same treatment
- Availability of over-the-counter options

Tier Definitions

Tier 1 drugs have the lowest cost share. These drugs offer the greatest value compared to others that treat the same conditions.

Tier 2 drugs have a medium cost share. They may be preferred drugs, based on their effectiveness and value. Some are newer, more expensive generic drugs. Tier 2 drugs have a higher cost share than Tier 1.

Tier 3 drugs have a higher cost share. They may cost more than others used to treat the same condition. Tier 3 may also include drugs that were recently approved by the FDA. Tier 3 drugs have a higher cost share than Tier 2.

Tier 4 specialty drugs have the highest cost share. They may cost more than others used to treat the same condition. Tier 4 may also include drugs that were recently approved by the FDA. Specialty drugs are used to treat complex, chronic conditions and may need special handling.

Q. What are “clinically equivalent” medications? How does this affect my drug coverage?

A. When drugs are compared in studies, some drugs are found to be just as effective as others. When one drug works just as well as another for the same purpose, they are said to be “clinically equivalent.” Part of the P&T process is to review the most current studies to see if multiple drugs used to treat a disease or a condition have the same effect on a patient. When this is the case, the review team may suggest that we cover only the lower-cost drug. (This helps keep the overall cost of health care as low as possible). This is also why your specific prescription drug plan may not cover some drugs (indicated by a ^ symbol next to the drug name) that have “clinically equivalent” options.

Q. Is this list a complete listing of all covered drugs under the National Drug List?

A. No. This document lists the most commonly used drugs that are covered as part of the National Drug List. If the drug you are looking for is not listed, you may call Customer Service for more information. The number is on your member ID card.

For more information about your drug plan, you can do the following:

- **Go to anthem.com**
- **Call Customer Service at the number on your ID card**
- **Speech and hearing impaired users (TDD/TTY) should call 800-221-6915, Monday – Friday, 8:30 a.m. – 5:00 p.m., ET**

Tier 1 drugs have the lowest cost share. These drugs offer the greatest value compared to others that treat the same conditions.

Tier 2 drugs have a medium cost share. They may be preferred drugs, based on their effectiveness and value. Some are newer, more expensive generic drugs. Tier 2 drugs have a higher cost share than Tier 1.

Tier 3 drugs have a higher cost share. They may cost more than others used to treat the same condition. Tier 3 may also include drugs that were recently approved by the FDA. Tier 3 drugs have a higher cost share than Tier 2.

Tier 4 specialty drugs have the highest cost share. They may cost more than others used to treat the same condition. Tier 4 may also include drugs that were recently approved by the FDA. Specialty drugs are used to treat complex, chronic conditions and may need special handling.

KEY

This † symbol means:

A generic equivalent of this drug recently became available or will be available soon. After the generic drug becomes available and notification requirements are met, this brand-name drug will become Tier 3 or may no longer be covered by your prescription drug plan. Check anthem.com to find out about changes in tier status.

This ^ symbol means:

This product has clinically equivalent alternatives included on the drug list. As a result, this product may not be covered under your pharmacy benefit. For coverage details, consult your online pharmacy account through your health care plan website at anthem.com

This ~ symbol means:

You must try this drug first when treating some conditions.

This # symbol means:

Tier 3 for Indiana.

PA = PRIOR AUTHORIZATION REQUIRED. Prior authorization means certain prescriptions have to be approved for coverage first, before they can be filled.

QL = QUANTITY LIMITS. Certain prescription drugs have quantity limits, meaning you can get only a specific amount of the drug at a time, per prescription or per month. This is usually for safety reasons.

ST = STEP THERAPY REQUIRED. You will need to use one medication first, before the use of another medication can be authorized.

ST ∞ = STEP THERAPY MAY BE REQUIRED. You may need to use one medication first, before the use of another medication can be authorized.

DO = DOSE OPTIMIZATION REQUIRED. This typically involves converting from a twice-daily dosing to a once-a-day dosing schedule.

Not all medications and not all plans are subject to prior authorization and quantity limits. For more information regarding prior authorization or quantity limits, contact Customer Service at the telephone number listed on your identification card.

For Kentucky Residents Only: In selecting medications for the prescription drug formulary, the therapeutic efficacy and cost effectiveness are addressed for each category. All therapeutic categories are represented on the formulary by at least one medication. When a closed formulary is in effect, only medications that are included on the formulary are a covered service. In certain clinical situations, a member may require use of a non-formulary product. Anthem has criteria that permits a member to obtain a non-formulary medication in a closed formulary plan. If specific criteria are met, a member can receive a non-formulary drug for a formulary copay. The criteria preserves the clinical integrity of the drug formulary and provides a process by which deviations from the formulary may be allowed. An appeals process is in place for any medications that do not meet the criteria.

Member cost share amounts for certain abuse-deterrent opioid analgesics may be lower in the state of Maine due to state laws. For additional information, please call the Customer Service number on your ID card.

**For more information,
please visit anthem.com.**

- **If you have additional questions about your prescription benefits please call the Customer Service number on your ID card**
- **Speech and hearing impaired (TDD/TTY users) should call 800-221-6915, Monday – Friday, 8:30 a.m. – 5:00 p.m., ET**
- **For the most current version of this prescription drug list, please visit anthem.com**

Anthem Blue Cross and Blue Shield is the trade name of: In Colorado: Rocky Mountain Hospital and Medical Service, Inc. HMO products underwritten by HMO Colorado, Inc. In Connecticut: Anthem Health Plans, Inc. In Georgia: Blue Cross and Blue Shield of Georgia, Inc. In Indiana: Anthem Insurance Companies, Inc. In Kentucky: Anthem Health Plans of Kentucky, Inc. In Maine: Anthem Health Plans of Maine, Inc. In Missouri (excluding 30 counties in the Kansas City area): RightCHOICE[®] Managed Care, Inc. (RIT), Healthy Alliance[®] Life Insurance Company (HALIC), and HMO Missouri, Inc. RIT and certain affiliates administer non-HMO benefits underwritten by HALIC and HMO benefits underwritten by HMO Missouri, Inc. RIT and certain affiliates only provide administrative services for self-funded plans and do not underwrite benefits. In Nevada: Rocky Mountain Hospital and Medical Service, Inc. HMO products underwritten by HMO Colorado, Inc., dba HMO Nevada. In New Hampshire: Anthem Health Plans of New Hampshire, Inc. Anthem Health Plans of New Hampshire, Inc. HMO plans are administered by Anthem Health Plans of New Hampshire, Inc. and underwritten by Matthew Thornton Health Plan, Inc. In Ohio: Community Insurance Company. In Virginia: Anthem Health Plans of Virginia, Inc. trades as Anthem Blue Cross and Blue Shield in Virginia, and its service area is all of Virginia except for the City of Fairfax, the Town of Vienna, and the area east of State Route 123. In Wisconsin: Blue Cross Blue Shield of Wisconsin (BCBSWi), which underwrites or administers the PPO and indemnity policies; CompCare Health Services Insurance Corporation (CompCare), which underwrites or administers the HMO policies; and CompCare and BCBSWi collectively, which underwrite or administer the POS policies. Independent licensees of the Blue Cross and Blue Shield Association. *ANTHEM is a registered trademark of Anthem Insurance Companies, Inc. The Blue Cross and Blue Shield names and symbols are registered marks of the Blue Cross and Blue Shield Association.

Express Scripts, Inc. is a separate company that manages the pharmacy benefit services for members of our health plans.
