Residential Life

Hello from Residential Life!

Welcome to StART OWU! The Residential Life Office has been working on housing assignments for new students and has sent messages with room and roommate information via email prior to StART (for those who submitted housing applications and deposits by May 15).

Please check in at the Residential Life table during the Information Fair on the first day of StART to complete your Personal Data Sheet and receive other relevant and important information.

If you have not yet completed an online housing application, please do this at your earliest convenience; we will email housing assignments to your new owu.edu email address, along with contact information for your roommate(s) in early July.

In order to complete your housing application through this secure site you will need to enter your OWU username and password. If you have forgotten this information, please refer to the Information Services Self Help site to reset your password (<http://helpdesk.owu.edu/nw/pw/>).

After you receive your housing assignment and contact information for your roommate(s) via email, we encourage you to connect with them and get acquainted via phone or email before you arrive on campus in August. Most roommates want to introduce themselves as well as clarify things such as who will bring different items. Because space is limited, it is a good idea to discuss what each roommate plans to bring, so you do not end up with two carpets, two TVs, two refrigerators, etc.

Ohio Wesleyan University is a residential campus, so we look forward to having you live on campus during your entire academic career! Building positive relationships with roommates and new friends will help you enjoy the on campus environment at OWU!
