

CAEP Assessment Cover Form	<p style="text-align: center;"><b>Satisfaction of completers: Ohio Department of Higher Education Survey of Ohio Pre-Service Teacher Candidates</b></p>
Administration and Purpose	<p>The Ohio Department of Higher Education (ODHE) assists EPPs in collecting completer data by surveying all teacher education candidates as they end their student teaching assignment. ODHE sends the raw data back to each EPP with the results from their completers. The purpose of this assessment is to gauge exiting candidates' perceptions of how well they were prepared to take their place as a professional educator in the public schools in this state. This survey is delivered electronically.</p>
Informing Candidates	<p>Candidates are informed that this survey will be emailed to them in their student teaching semester (typically March). Candidates are given time during a student teaching seminar to complete the survey. Faculty leave the room while candidates complete the survey.</p>
Content of Assessment	<p>See the list of 49 items below.</p> <p>During a department meeting EPP faculty members sorted the 49 survey items into zero, one, or more InTASC categories. Each member sorted some of the items, and all faculty members checked each category for accuracy, and realigned as needed.</p>
Scoring	<p>Each survey item has a 4-point Likert type scale with 1 representing “strongly disagree” and 4 representing “strongly agree.”</p>
Data Validity or Survey Content	<p>The Pre-Service Teacher Survey is found to have strong content validity, shown in the crosswalk</p>
Data Reliability or Data Quality	<p><a href="https://www.ohiohighered.org/sites/ohiohighered.org/files/uploads/education-prep/documents/Ohio_Educator_Surveys_Crosswalk_With_Ohio_Standards.xlsx">https://www.ohiohighered.org/sites/ohiohighered.org/files/uploads/education-prep/documents/Ohio_Educator_Surveys_Crosswalk_With_Ohio_Standards.xlsx</a>) aligning the survey to the Ohio Standards for the Teaching Profession (InTASC aligned), the Ohio School Operating Standards, and the Ohio Standards for Professional Development. A linear regression model applied found a strong linear relationship between the Pre-Service Teacher Survey and the Resident Educator Survey completers fill out in their second year of their Resident Educator license, indicating that that Pre-Service Teacher</p>

More information about ODHE survey validity and reliability is found here: <a href="https://www.ohiohighered.org/sites/ohiohighered.org/files/uploads/education-prep/documents/Measuring%20Reliability%20and%20Predictive%20Validity_Ohio_Educator_Preparation_Survey_Instruments.pdf">https://www.ohiohighered.org/sites/ohiohighered.org/files/uploads/education-prep/documents/Measuring%20Reliability%20and%20Predictive%20Validity_Ohio_Educator_Preparation_Survey_Instruments.pdf</a></p>
Comments	<p>The data in the table indicate that across all areas, our graduates are in agreement that they are well-prepared to go and teach in their own classrooms--in fact, for the past three years, our programs' averages have far exceeded the state's averages.</p>
