My life since graduating from Ohio Wesleyan:

After OWU I got my MBA at the The University of Toledo and went to work for Owens Corning Fiberglas and was moved to Dallas Texas. 1981 started my Engineering and Sales company in Industrial insulation products and retired and sold 8/2025. Married my wife Jacque in 1981 and have two Daughters Allison and Sarah. Allison married a lacrosse player Matt Frizzo, who graduated from OWU in 2009. They had my first Grandson Walked Frizzo 8/15/2025. I enjoy working out and fly fishing, and any type of project. Just got back from a 5 National Park tour with an OWU buddy. I spend a lot of time at the lake boating and visiting friends. I have been back every year since I graduated, but want to catch up with a group of OWU buddy's.

Memories I cherish from Ohio Wesleyan:

My best memories from OWU are the friends I made from my Teammates on the football and track teams. The great friendships from the Phi Gamma Delta Fraternity that have lasted all these years. OWU gave me a great calling card with many businesses and people outside of OWU during my life when I told them where I went to school. It has made me want to come back every year to relive some of the best memories in my life.

A professor I will always remember and why:

Dr. Norman Leonard: Told the a Money and Banking class when we get out of school and get a real job, save the first 10% of you paycheck, pay your bills and spend the rest on things you need or save it. That advice has allowed me to be independent of any company and debt in my later life.

How Ohio Wesleyan influenced my life:

With sports and academic demands at OWU, it gave me the discipline to manage my time throughout life for business and personal endeavors. It also made me want the challenge of running my own business for 44 years.
