Issue 1: March 2025

upcoming Events

Join us for a Global Learning Lunch!

**International Studies social/informational event
Tuesday March 25 at Noon**

Elliott 101

*catered by Chipotle

ABOUT THE MAJOR

The cross-disciplinary nature of OWU's International Studies major provides you with a holistic understanding of global issues and interactions. And the setting in a national liberal arts university means you can work closely with a faculty mentors to develop a major and deeply explore research projects that fit your interests and goals.

In the major, you can pursue general international studies or concentrate on a specific region - Europe, Africa, Asia, Latin America, or Middle East. The core curriculum covers global issues, international economics, and international politics, and you're encouraged to study at least one foreign language and spend at least one semester studying or interning abroad. You'll cap off your major with an integrative senior seminar to help tie everything together.

THERE IS ALSO AN INTERNATIONAL STUDIES MINOR
