

CAEP Assessment Cover Form	Satisfaction of Completers : Survey of Resident Educators' Reflections on their Preparation
Administration and Purpose	The Ohio Department of Higher Education (ODHE) assists EPPs in collecting completer data by surveying all Ohio licensed completers on their "satisfaction with the quality of preparation" provided by their EPPs. ODHE sends the raw data back to each EPP once per reporting year. This survey is provided to licensed teachers who completed their preparation in Ohio, in the fall of Year 2 of their Resident Educator program.
Informing Candidates	All eligible completers are invited to complete the survey. The survey is almost identical to the ODHE Pre-Service Student Teaching survey candidates complete in student teaching (typically, 2 years prior).
Content of Assessment	See the list of 49 items below, 48 of which are identical to the ODHE Pre-service Student Teaching Survey. During a department meeting EPP faculty members sorted the survey items into zero, one, or more InTASC categories. Each member sorted some of the items, and all faculty members checked each category for accuracy, and realigned as needed. The alignment is provided at the end of the table
Scoring	Each survey item has a 4-point Likert type scale with 1 representing "strongly disagree" and 4 representing "strongly agree."
Data Validity or Survey Content	The Resident Educator Survey is found to have strong content validity, shown in this report (https://www.ohiohighered.org/sites/ohiohighered.org/files/uploads/education-prep/documents/Ohio_Educator_Surveys_Crosswalk_With_Ohio_Standards.xlsx) aligning the survey to the Ohio Standards for the Teaching Profession (InTASC aligned), the Ohio School Operating Standards, and the Ohio Standards for Professional Development.

Data Reliability or Data Quality	
Comments	<p>An EPP response rate is not provided.</p> <p>Even though there is a low N across the years, the alumni that graduate and then take the survey indicate that across all areas, they are in agreement that they are well-prepared to go and teach in their own classrooms. Alumni responses are either above the state average or commensurate with the state average.</p>
